

BusIO\_7Semi::readBit

BusIO\_7Semi::readBit

BusIO\_7Semi::readBits

```
graph LR; A[BusIO_7Semi::readBit] --> C[BusIO_7Semi::readBits]; B[BusIO_7Semi::readBit] --> C;
```

The diagram illustrates a code transformation or optimization. On the left, there are two separate calls to the function `BusIO_7Semi::readBit`. Blue arrows from each of these calls point to a single call to the function `BusIO_7Semi::readBits` on the right. The `readBits` box is shaded gray, while the `readBit` boxes are white with black borders.
