```

The diagram illustrates a flow where two separate functions, 'DevLab\_ICM20948::beginI2C' and 'DevLab\_ICM20948::beginSPI', both point to a single target function, 'DevLab\_ICM20948::applyBasic Defaults'. The target function is highlighted in a gray box, while the source functions are in white boxes. Blue arrows indicate the direction of the flow from the source functions to the target.
